### PROFILE

Versatile Frontend Developer with 3.5+ years of hands-on experience in **React.js**, **Vue.js**, and **Nuxt.js**, delivering high-quality, responsive interfaces. Proven expertise in integrating REST APIs and backend services, adept at full-stack development with **Django** Rest Framework. Successfully led the end-to-end implementation of multiple modules, demonstrating strong collaboration skills and a keen eye for detail. Eager to contribute dynamic skills and experience to drive innovation in a new role.

### WORK EXPERIENCE

#### Frontend Developer

Cleverground Technologies pvt ltd

2021-Present

- Developed and maintained the frontend of a web-based product using React.js, ensuring high-quality and responsive user interfaces.
- Integrated APIs and backend services into the frontend, facilitating seamless communication between the user interface and server-side functionalities.
- Implemented RESTful APIs using Django Rest Framework, enabling efficient data retrieval and manipulation for the product.
- Conducted thorough testing and debugging of the frontend application to identify and resolve any issues or bugs.
- Actively participated in product discussions, providing technical insights and suggestions to enhance the user experience and product functionality.
- Led the development of multiple modules within the product, taking ownership of their end-to-end implementation and ensuring successful delivery.
- Collaborated closely with the product team to gather requirements, prioritize tasks, and define module development timelines.

#### Web Developer

Formec Media LLP

2020-2021

- Developed and maintained websites using Nuxt.js, ensuring clean and efficient code implementation.
- Integrated APIs into the website to enable data retrieval and dynamic content generation.
- Worked with the Strapi headless CMS framework to create REST APIs for seamless communication between the frontend and backend.
- Converted wireframes and design mockups into pixel-perfect web pages, ensuring visual consistency and attention to detail.
- Participated in the development lifecycle of single website projects, contributing to planning, design, implementation, and testing phases.
